Quick Installation Guide for InStreamer

Optimized for:

v9
and

v8

Quick Installation Guide for InStreamer

Required components for installation:
– Cinch cable
– TOSLINK cable
– Ethernet cable

1. Connection

1.1 Connect the Cinch and/or TOSLINK cable to the InStreamer.

1.2 Connect the Ethernet cable to your local network switch/hub.

1.3 Connect the power supply.

The InStreamer expands your existing trivum multiroom system with one additional audio input. It provides one analog input and one digital (TOSLINK) input.

ℹ Note: The digital input is prioritized when playing music.

ℹ Note: We recommend to use your InStreamer with our new trivum multiroom software v9.
To update your existing trivum multiroom system please check: http://service.trivum.com/v9-update

2. Configuration on trivum system v8

2.1 Open the trivum MusicCenter WebConfig.

2.2 Click *InStreamers* -> *Add InStreamer.*

2.3 On the popup *Is the new InStreamer already active in the network?* select
- *yes-and select from list*
   which inStreamer do you want to use?
   select from list

- *no-and enter the InStreamer serial number*
   Enter the serial number (with suffix .29)

3. Direct access on v8

To get direct access from your trivum TouchPad:

3.1 Open the trivum MusicCenter WebConfig.

3.2 Click *Zones.*

3.3 At your preferred zone(s) click 📑 -> *Actions*

3.4 Click *no action* -> *Activate a source* -> Streaming -> play InStreamer1

The InStreamer is now integrated in your trivum system.

4. Configuration on trivum system v9

4.1 Open the trivum MusicCenter WebConfig.

4.2 Click *InStreamers*.

4.3 Click *Expand this system and add a new InStreamer.*

4.4 A list of all available InStreamers appears. Choose your corresponding InStreamer by serial number.

5. Direct access on v9

To get direct access from your trivum TouchPad:

5.1 Open the trivum MusicCenter WebConfig.

5.2 Click *Zones* and select your *DEFINED ZONE*

5.3 Click *Define the zone related actions* -> *Action ...*

5.4 Insert *Description* and click *Action* -> *Activate a source.*

5.5 Select your InStreamer.

The InStreamer is now integrated in your trivum system.

Backup your configuration
Once you have completed the setup, we recommend you to make a backup of your configuration:
– Open the MusicCenter WebConfig.
– Click *Backup/Restore* -> *Export/import configuration.*
– Follow the instructions.

How to use KNX?
The KNX programming of your trivum multiroom system is done via the web browser. No need for extra KNX software.
– Open the MusicCenter WebConfig.
– Click KNX and enable *use KNX*.
– Follow the instructions.

You find further informations for KNX on:
